26 Defendants. )

27 )

28 )

1 Plaintiff Microsoft Corporation (“Microsoft”) has filed a complaint for injunctive and other  
 2 relief pursuant to: (1) the Computer Fraud and Abuse Act (18 U.S.C. § 1030); (2) the Anti-  
 3 Cybersquatting Consumer Protection Act (15 U.S.C. § 1125); (3) Nevada’s Unlawful Acts  
 4 Regarding Computers and Information Services (N.R.S. § 205.4765); and the common law of (4)  
 5 trespass to chattels, (5) conversion, and (6) negligence. Microsoft has moved *ex parte* for an  
 6 emergency temporary restraining order and an order to show cause why a preliminary injunction  
 7 should not be granted pursuant to Rule 65(b) of the Federal Rules of Civil Procedure and Civil Local  
 8 Rule 7-5.

9 **FINDINGS**

10 The Court has considered the pleadings, declarations, exhibits, and memorandum filed in  
 11 support of Microsoft’s motion and finds that:

12 1. This Court has jurisdiction over the subject matter of this case, and there is good  
 13 cause to believe that it will have jurisdiction over all parties; the Complaint states a claim upon  
 14 which relief may be granted against Defendants Mutairi, Benabdellah, and Does 1-500 (“Malware  
 15 Defendants”) under the Computer Fraud and Abuse Act (18 U.S.C. § 1030), the Anti-Cybersquatting  
 16 Consumer Protection Act (15 U.S.C. § 1125), Nevada’s Unlawful Acts Regarding Computers and  
 17 Information Services (N.R.S. § 205.4765), and the common law of trespass to chattels, conversion,  
 18 and negligence, and against Defendant Vitalwerks under the Anti-Cybersquatting Consumer  
 19 Protection Act (15 U.S.C. § 1125) and the common law of negligence.

20 2. There is good cause to believe that Malware Defendants have engaged in and are  
 21 likely to engage in acts or practices that violate the Computer Fraud and Abuse Act (18 U.S.C. §  
 22 1030), the Anti-Cybersquatting Consumer Protection Act (15 U.S.C. § 1125), Nevada’s Unlawful  
 23 Acts Regarding Computers and Information Services (N.R.S. § 205.4765), and the common law of  
 24 trespass to chattels, conversion, and negligence, and that Microsoft is, therefore, likely to prevail on  
 25 the merits of this action.

26 3. There is good cause to believe that, unless the Malware Defendants are restrained and  
 27 enjoined by Order of this Court, immediate and irreparable harm will result from their ongoing  
 28 violations of the Computer Fraud and Abuse Act (18 U.S.C. § 1030), the Anti-Cybersquatting

1 Consumer Protection Act (15 U.S.C. § 1125), Nevada’s Unlawful Acts Regarding Computers and  
2 Information Services (N.R.S. § 205.4765), and the common law of trespass to chattels, conversion,  
3 and negligence. The evidence set forth in Microsoft’s Brief in Support of Application for a  
4 Temporary Restraining Order and Order to Show Cause Regarding Injunctive Relief (“TRO  
5 Motion”), and the accompanying declarations and exhibits, demonstrates that Microsoft is likely to  
6 prevail on its claim that these Defendants have engaged in violations of the foregoing laws through  
7 one or more of the following:

8 Defendants Mutairi and Benabdellah:

9 a. Knowingly, willfully, and without authorization publishing and transferring  
10 malware to Doe Defendants;

11 All Malware Defendants:

12 b. Intentionally and knowingly accessing and sending malicious code to the  
13 protected computers and operating systems of Microsoft and its customers  
14 without authorization, in order to infect those computers and intending to  
15 cause damage and benefiting therefrom;

16 c. Sending malicious code to access the protected computers without  
17 authorization or in excess of any authorization to control and/or obtain  
18 information from the computers;

19 d. Delivering malicious code;

20 e. Using sub-domains containing Microsoft’s protected marks; and

21 f. Negligently engaging in such acts and permitting, enabling and encouraging  
22 other defendants to participate in illegal acts harmful to Microsoft,  
23 Microsoft’s customers, and the general public.

24 4. There is good cause to believe that Defendant Vitalwerks has engaged in and is likely  
25 to engage in acts or practices that violate the Anti-Cybersquatting Consumer Protection Act (15  
26 U.S.C. § 1125) and the common law of negligence, and that Microsoft is, therefore, likely to prevail  
27 on the merits of this action.

5. There is good cause to believe that, unless the Defendant Vitalwerks is restrained and enjoined by Order of this Court, immediate and irreparable harm will result from its ongoing violations the Anti-Cybersquatting Consumer Protection Act (15 U.S.C. § 1125) and the common law of negligence. The evidence set forth in Microsoft’s TRO Motion, and the accompanying declarations and exhibits, demonstrate that Microsoft is likely to prevail on its claim that this Defendant has engaged in violations of the foregoing laws through one or more of the following:

- a. Leasing to Malware Defendants No-IP sub-domains containing Microsoft's protected marks; and
- b. Negligently enabling Malware Defendants to participate in illegal acts, and failing to take sufficiently corrective action to stop and prevent the abuse of its services, all of which harms Microsoft, Microsoft's customers, and the general public.

6. There is good cause to believe that if such conduct continues, irreparable harm will occur to Microsoft, its customers, and the public. There is good cause to believe that the Malware Defendants will continue to engage in such unlawful actions if not immediately restrained from doing so by Order of this Court.

7. There is good cause to believe that immediate and irreparable damage to this Court's ability to grant effective final relief will result from the sale, transfer, or other disposition or concealment by Defendants of the Internet domains at issue in Microsoft's TRO Motion and other discoverable evidence of Defendants' misconduct available through such Internet domains if the Defendants receive advance notice of this action. Based on the evidence cited in Microsoft's TRO Motion and accompanying declarations and exhibits, Microsoft is likely to be able to prove the following:

- a. Defendants have engaged in activities that directly violate United States and Nevada law and harm Microsoft, its customers and the public;
- b. Defendants have continued their unlawful and/or negligent conduct despite the clear injury to Microsoft, its customers, and the public;

- c. Defendants are likely to relocate beyond the jurisdiction of U.S. courts the information and evidence of their misconduct stored at the Internet domains at issue in Microsoft's TRO Motion and the harmful and malicious code disseminated through these Internet domains;
- d. Defendants are likely to warn its associates engaged in such activities if informed of Microsoft's action; and
- e. Defendants have negligently allowed other defendants to use their business and resources for illegal activities.

8. Microsoft's request for this emergency *ex parte* relief is not the result of any lack of diligence on Microsoft's part, but instead based upon the nature of Defendants' unlawful conduct. Therefore, in accordance with Federal Rule of Civil Procedure 65(b) and Civil Local Rule 7-5, good cause and the interest of justice require that this Order be Granted without prior notice to Defendants, and accordingly, Microsoft is relieved of the duty to provide Defendants with prior notice of Microsoft's motion.

9. There is good cause to believe that Defendants have engaged in intentionally illegal and/or negligent activity using the No-IP domains that are maintained by the top level domain registries Verisign, Inc., Neustar, Inc., Aflias, Ltd., and Public Interest Registry (“Registry Operators”).

10. There is good cause to believe that to immediately halt the injury caused by Defendants, it must be ordered as follows:

a. To immediately, on all authoritative name servers for the .COM, .NET, .ORG, .BIZ, and .INFO top level domains,<sup>1</sup> change the Domain Name System authoritative name servers for the No-IP domains associated with the malware (“Malware Domains”), listed in Appendix A, to “ns7.microsoftinternetsafety.net” and “ns8.microsoftinternetsafety.net,” and remove all other authoritative name servers for the Malware Domains. The

<sup>1</sup> Microsoft has also identified No-IP domains ending in .ME that are associated with the malware. However, Malware Domains ending in .ME are expressly excluded from this Order because .ME is a global Top Level Domain that is controlled by the country of Montenegro.

Registry Operators shall reasonably cooperate with Microsoft to implement this order through one or more of the foregoing changes, as may be necessary to effectuate the terms of this order;

- b. To immediately take all steps required to propagate the foregoing change to the Domain Name System to all parts of the Domain Name System necessary to effect this change; and
- c. To take all necessary steps to ensure that the foregoing changes remain in effect for the duration of this order.

11. There is good cause to permit notice of the instant order, notice of the Preliminary Injunction hearing and service of the Complaint by formal and alternative means, given the exigency of the circumstances and the need for prompt relief. The following means of service are authorized by law, satisfy Due Process and Federal Rule of Civil Procedure 4(f)(3), and are reasonably calculated to notify Defendants of the instant order, the Preliminary Injunction hearing and of this action:

- (1) personal delivery on Defendant Vitalwerks at its business address in Nevada;
- (2) transmission by e-mail, Facebook, and Skype on Defendants Mutairi and Benabdellah; and
- (3) publishing notice on a publicly available Internet website.

## **TEMPORARY RESTRAINING ORDER AND ORDER TO SHOW CAUSE**

**IT IS THEREFORE ORDERED** that, Malware Defendants and their representatives are temporarily restrained and enjoined from intentionally accessing and sending malicious software or code to Microsoft's and its customers' protected computers and operating systems, without authorization, in order to infect those computers with the Bladabindi/Jenxcus malware for illegal purposes.

**IT IS FURTHER ORDERED** that, Defendants and their representatives are temporarily restrained and enjoined from configuring, deploying, operating or otherwise participating in or facilitating the spread of Bladabindi/Jenxcus malware including, but not limited to the command-

1 and-control software hosted at and operating through the IP addresses at No-IP sub-domains set forth  
2 herein and through any other component or element of the malware scheme in any location.

3 **IT IS FURTHER ORDERED** that the Registry Operators must:

- 4 a. To immediately, on all authoritative name servers for the .COM, .NET, .ORG,  
5 .BIZ, and .INFO top level domains, change the Domain Name System  
6 authoritative name servers for the No-IP domains associated with the  
7 malware, listed in Appendix A, to “ns7.microsoftinternetsafety.net” and  
8 “ns8.microsoftinternetsafety.net,” and remove all other authoritative name  
9 servers for the Malware Domains. The Registry Operators shall reasonably  
10 cooperate with Microsoft to implement this order through one or more of the  
11 foregoing changes, as may be necessary to effectuate the terms of this order;
- 12 b. Immediately take all steps required to propagate the foregoing change to the  
13 Domain Name System to all parts of the Domain Name System necessary to  
14 effect this change;
- 15 c. Take all necessary steps to ensure that the foregoing changes remain in effect  
16 for the duration of the order;
- 17 d. Shall completely refrain from providing any notice or warning to, or  
18 communicating in any way with Defendants or Defendants’ representatives  
19 and shall refrain from publicizing this Order until this Order is executed in  
20 full, except as necessary to propagate the changes ordered herein to all parts of  
21 the Domain Name System;
- 22 e. Shall save all communications to or from Defendants or Defendants’  
23 Representatives and/or related to the domains and sub-domains set forth in  
24 Appendix A; and
- 25 f. Shall preserve and retain all records and documents associated with  
26 Defendants’ or Defendants’ Representatives’ use of or access to the domains  
27 set forth in Appendix A, including billing and contact information relating to

the Defendants or Defendants' representatives using these servers and all logs associated with these servers.

**IT IS FURTHER ORDERED** that the authoritative name server set up and managed by Microsoft to respond to requests for the IP addresses of the sub-domains of No-IP may respond to requests for the IP address of any domain listed in Appendix A or later determined to be associated with malware activity either by (1) giving no reply; or (2) replying with the address of a special Microsoft “sink-hole” computer, which, when contacted, shall log the date and time of the request, the IP address and related information from the requesting computer but otherwise not respond to the request.

**IT IS FURTHER ORDERED** that copies of this Order, notice of the Preliminary Injunction hearing and service of the Complaint may be served by any means authorized by law, including (1) by personal delivery upon Defendants who provided contact information in the U.S.; (2) by transmission by e-mail, Facebook, or Skype to the extent that there is no known postal address for the Defendant; and (4) by publishing notice to Defendants on a publicly available Internet website and/or in newspapers in the communities in which Defendants are believed to reside.

**IT IS FURTHER ORDERED**, pursuant to Federal Rule of Civil Procedure 65(b) that the Defendants shall appear before this Court on July 10, 2014, at 3:00 p.m., in LV Courtroom 7D, to show cause, if there is any, why this Court should not enter a Preliminary Injunction, pending final ruling on the Complaint against the Defendants, enjoining them from the conduct temporarily restrained by the preceding provisions of this Order.

**IT IS FURTHER ORDERED** that Microsoft shall post bond in the amount of **\$200,000.00** to be paid to the Court Clerk

**IT IS FURTHER ORDERED** that Microsoft effect service on Defendants no later than Tuesday, July 1, 2014.

**IT IS FURTHER ORDERED** that the Defendants shall file with the Court and serve on Microsoft's counsel any answering affidavits, pleadings, motions, expert reports or declarations and/or legal memoranda no later than **Tuesday, July 8, 2014**. Microsoft may file responsive or supplemental pleadings, materials, affidavits, or memoranda with the Court and serve the same

1 on counsel for the Defendants no later than **12:00 NOON on Thursday, July 10, 2014**. Provided  
2 that service shall be performed by personal or overnight delivery, facsimile or electronic mail, any  
3 documents shall be delivered so that they shall be received by the other parties no later than 4:00  
4 p.m. (Pacific Daylight Time) on the appropriate dates listed in this paragraph.

5 **IT IS SO ORDERED** this 26th day of June, 2014.
